*Iran Tehran*  
~~29 September~~  
*Payam Amini* THE EXECUTIONS IN IRAN MUST BE STOPPED!

In the recent days the Islamic Republic of Iran has become alarmingly active in the bloody act of execution, and has showed itself even more as a threat to its citizens. The Islamic Republic of Iran has declared, with its heavy censorship and its executions that it will silent any person that dares to oppose the Islamic Republic's bloody politics and its bloody reign in Iran. Only in this way does the Islamic Republic of Iran remain in power, and survive day to day from its inevitable down fall. The Youth Communist Organization wants an end to these executions and an end to the bloody regime of the Islamic Republic of Iran and asks all to come and fight on a common front to protest against the recent executions and against the Islamic Republic. Together we can make a difference.

**Protest time: Friday Nov 1st 5 pm**
